DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, Claims 1-40 and 49-52 in the reply filed on 06/20/05 is acknowledged.

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

- Group I: Figures 1-3. Inflator assembly 28.
- Group II: Figure 4. Inflator assembly 159.
- Group III: Figures 5-6. Inflator assembly 259.
- Group IV: Figure 7. Inflator assembly 359.
- Group V: Figures 8-9. Inflator assembly 459.
- Group VI: Figure 10. Inflator assembly 559.
- Group VII: Figure 11. Inflator assembly 659.
- Group VIII: Figure 12. Inflator assembly 759.
- Group IX: Figure 13. Inflator assembly 859.
- Group X: Figure 14. Inflator assembly 959.
- Group XI: Figure 15. Inflator assembly 1059.
- Group XII: Figure 16. Inflator assembly 1159.
- Group XIII: Figure 17. Inflator assembly 1259.
- Group XIV: Figure 18. Inflator assembly 1359.
- Group XV: Figures 19a-19e. Inflator assembly 1460.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there appears to be no generic claim.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 2839

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
